

RUWAC INTRODUCES THE WNS1000... "BABY RED"

The WNS 1000 is Ruwac's newest addition to the family of intermittent duty vacuums. Sharing the same filter technology as "Little Red", this vacuum offers superb, long lasting, maintenance-free filtration with a filter efficiency of 99.9% @ 0.5 micron. It's compact design ensures maneuverability and portability while it's rugged exterior construction withholds the toughest environments. Equipped with a 9 gallon easy-to-empty dustpan, this vacuum guarantees the results you are looking for. It is user-friendly and will increase your productivity while saving you money.

Features and Benefits:

- Single motor vacuum produces 82" H₂O and 109 CFM, providing ample vacuum for 1.50" diameter x 10' hose.
- Durable compression cast composite housing that will never dent or rust.
- Oversized primary filter area reinforced with a steel cage, eliminates premature filter clogging.
- Modular housing components allow for HEPA and motor deck upgrades.
- Vacuum portability and counter-balanced base is easily maneuverable in tight areas and will never tip over.
- NO SHOCK hazards- fully grounded vacuum and accessories.

The WNS 1000 works great with vacuum assist hand tools utilized in the concrete industry. When attached to the WNS 1000, tools such as 5" hand grinders, tuck pointers, dustless needle guns, peening prep tools and shrouded right angle grinders can do their job while Ruwac reclaims the dust and debris generated. Attach your favorite Ruwac accessory for general cleanup.

Ruwac will also custom design and fabricate vacuum shrouds for any hand held tool.
