

CAPTURE GRINDING DUST

with **RUWAC'S**

"Big Red"

At last, a compact vacuum that operates more efficiently than a large dust collector.

Powerful, Portable, Self Contained, and Efficient

- Produces a maximum of 500 CFM and 94 H₂O" (6.9 Hg")
- 220 volt single phase, 27 max amps
- Equipped with four heavy-duty industrial vacuum motors

Sub-Micron Filtration

- Primary filter element is 99.9% efficient @ 0.5 micron
- 48 sq/ft of Ruwac's specialized pleated filtration provides longer vacuum cycles and a cleaner work environment
- No bags or pre-filters to replace
- Filter is automatically cleaned by our *Turbo Reverse Pulse System* using Delta P
- Heavy-duty, onboard oil-less compressor produces all the required air for the Pulse System
- Electrical controls supplied in a NEMA 4 enclosure
- HEPA after filter is standard with a 99.97% efficiency capturing particles down to 0.3 microns
- Oversized 50 sq/ft HEPA filter guarantees an extended filter life while exhausting only pure air

Portable & Easily Maneuverable

- Heavy duty 6" casters- (2) front swivel, and (2) rear with foot-activated locking brakes
- 4" aluminum inlet with button lock connectors
- Emptying is a synch! Foot activated lever lowers 24 gallon dustpan to ground. Dustpan is supplied with (4) swivel casters and (2) external handles- easing the emptying process. No more shovels required!
- Only weighs 475 pounds
- Compact foot print- Conserves valuable space while transporting
- Easily maneuvered in any standard doorway or elevator.
- (38" x 31.5" x 81") (l x w x h)
- Reinforced steel exterior frame provides protection for transporting

WS 3420 "Big Red"

Ideal for large Grinders, Blasters, and Scarifiers.

Powerful enough for multi-operators.

Ruwac

We vacuum every thing...
